international school for humanities and social sciences language english abstract this is a literature based work by writing this paper i wanted to get a basic impression of the theories about the public as developed in urban sociology i used lyn lofland s book the public realm and louis wirth s article urbanism as a way of life as my main references to give some deeper impact on classical social theories i added the basic items from habermas strukturwandel der Öffentlichkeit the structural transformation of the public sphere and some basic ideas of simmel s sociology<sup>1</sup> to get more information about the development of the public in sciences i used a book called Öffentlichkeit geschichte eines kritischen begriffs the public about the history of a critical term i was impressed by the pragmatic and frequent examples that lofland uses to explain her theories at my home university the otto friedrich universität bamberg it is unusual to give an example for every written item it is more often the case like at the end of a hauptseminararbeit<sup>2</sup> that one basic example is given for an actual topic european union etc the aim of examples given in students homework is to show that the often complex social theories have been profoundly understood by the student though i found lofland s style of giving many examples to her readers very positive i will go on writing my paper in the way i have learned without many examples and based on theoretical perspective of social structures due to this decision my work may differ from the exams handed in by american students
