presented here is ground breaking comparative research on an underappreciated yet growing concurrent alternative process universities and their expanding research capacity create knowledge and skills

legitimated in new degrees that then become monetized and even required in private and public sectors of economies

the maya literary renaissance is a growing yet little known literary phenomenon that can redefine our understanding of literature universally by analyzing eight representative texts of this new and vibrant literary movement the book argues that the texts present literature as a trans species phenomenon that is not reducible only to human creativity based on detailed textual analysis of the literature in both maya and spanish as well as first hand conversations with the writers themselves the book develops the first conceptual map of how literature constantly emerges from wider creative patterns in nature this process defined as literary inhabitation is explained by synthesizing core maya cultural concepts with diverse philosophical literary anthropological and biological theories in the context of the yucatan peninsula where the texts come from literary inhabitation is presented as an integral part of bioregional becoming the evolution of the peninsula as a constantly unfolding dialogue

the minneapolis college of art and design presents a collection of images of italian architecture from the renaissance as part of the art images for college teaching resource the images include buildings designed by such architects as filippo brunelleschi and michelozzo di bartolommeo
